Readme

To run the code provided you have to install python3 and pyqt5.

After python3 installed use the following to install PyQt5

pip install pyqt5

Run the game :

To run the human version game just type in your terminal :

python game.py

To run the AI version game with your two AI (In this example we have ia_player and ia_za) just type :

python ai_game_cly –ai0 ia_player –ai1 ia_za
